June 7, 2015

Let's start !

A minimal design

- Keep the focus on the presentation
- Preserve as much space as possible for your slides
- Yet show all information relative to presentation / speaker

Outline

- 1 A first section
 - A subsection
 - Another subsection

Outline

- 1 A first section
 - A subsection
 - Another subsection

Tree

Did you see the flat tree that appears in the red bar ?

Outline

- 1 A first section
 - A subsection
 - Another subsection

Two level tree

Flat tree

With the classic tree theme, you would have lost one line in this frame.

Outline

- 1 A first section
 - A subsection
 - Another subsection

Dummy slide

Because why not ?

And also to show an example block

No idea

So much space

Yet no idea what to do with it, I should stop here ...
